

How to locate or create a CHRISTUS CME Profile

Let's get started! Click the link provided <https://cmetracker.net/ONECHRISTUS>

If your CME profile was not created with a CHRISTUS email, please use the **“Standard Sign In”** option and enter the email and password you previously created.

Welcome:

Please select your Account Type below.

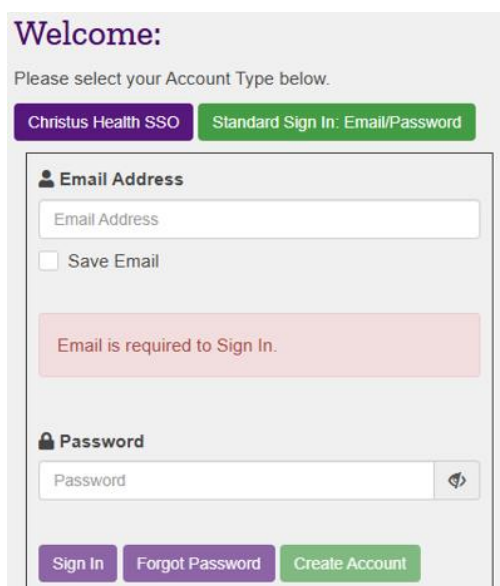

Christus Health SSO Standard Sign In: Email/Password

If you don't have a CME account with CHRISTUS at all, and you would like to create one using a personal email:

- To get started, select **“Standard Sign In”** option
- Enter the email address that you would like to use
- Then select “Create Account”

If you would like to use your CHRISTUS email to create an account, sign in by selecting the CHRISTUS Health SSO option from a CHRISTUS assigned computer and complete your profile.

When creating an account, you will be asked to enter your last name and phone number for the system to confirm that you don't already have an active account.

Welcome:

Please select your Account Type below.

How to locate or create a CHRISTUS CME Profile

After answering the two questions you are asked, and no additional account is found:

- You will be asked to choose either Continue or Try Again
- If you select Continue, you will be directed to complete your profile, answer a few questions and then save the profile.

IMPORTANT NOTICE: Your “Assign Credit Eligibility” options are automated within the CME ONE CHRISTUS Profile based on the Title that is entered when you create an account. If you are missing information, please let me know.

Once an account is created, on your Profile home screen, you will see six different menu options. Please use these options to add, claim credit or look up information you need. See below

If you have any questions, or need further assistance, please contact
